

GUILHERME CÂNDIDO

Analytics & BI-Focused Professional | Dashboards, Reporting, Business Insights & Process Automation

EU Citizen | Cork, Ireland | gl.candido77@gmail.com | Portfolio: glcandido.github.io | LinkedIn: guilhermelcandido

PROFESSIONAL PROFILE

Analytics and BI-focused professional with a background in Data Analysis and System Development, combined with hands-on experience in operations, administration, customer service, team management and web systems. Practical experience organising operational data, improving Google Sheets-based workflows, creating reporting views, and turning manual processes into clearer systems that support better day-to-day decisions.

Interested in junior opportunities across data analytics, business intelligence, reporting, operations analytics, marketing analytics and insight-focused roles where technical skills, process improvement and real business context are valued.

CORE SKILLS

Analytics & BI: Data analysis, business intelligence, reporting, KPI tracking, business insight, data storytelling

Dashboards & Reporting: Dashboard design, operational reports, structured templates, performance tracking, visualisation

Tools & Technical: SQL, MySQL, Tableau, Microsoft Excel, Google Sheets, pivot tables, lookup functions

Process & Operations: Process automation, workflow optimisation, data organisation, stock control, scheduling, customer communication

PROFESSIONAL EXPERIENCE

Data & Process Optimisation | TravelMaster.ie | Jun 2025 - Present | Cork, Ireland

- Support digital operations and process improvement, with a focus on data organisation, operational tracking, website administration, reporting workflows and customer communication.
- Build and improve Google Sheets-based systems to organise booking, schedule, quantity, location and event-related data.
- Create structured templates and reporting views to support planning, reduce repetitive work and improve visibility across operational processes.
- Use formulas, validation and automation logic to improve data accuracy, consistency and workflow efficiency.

Assistant Manager | Gino's Gelato | Nov 2021 - Jun 2025 | Cork, Ireland

- Managed daily store operations, including stock control, opening and closing procedures, team coordination, customer service and operational problem-solving.
- Tracked stock levels, identified replenishment needs and supported smoother day-to-day operations through organised routines and attention to detail.
- Improved workflow consistency by helping structure tasks, delegate responsibilities and keep operational processes running efficiently.
- Developed strong business awareness through hands-on experience with customer behaviour, inventory movement, team performance and service quality.

Warehouse Operator | DHL Supply Chain | Nov 2021 - Jan 2022; May 2020 - Sep 2020 | Dublin, Ireland

- Processed, packaged and shipped orders accurately in a fast-paced warehouse environment.
- Handled incoming and outgoing shipments, stock placement and warehouse organisation while maintaining accuracy and process discipline.

IT Technician | Analizo - Sistemas de Gestao em Saude | Jul 2021 - Oct 2021 | Santos, Brazil

- Provided technical support, troubleshooting and software maintenance to help keep internal systems operational.
- Supported business features and reporting needs using Classic ASP.NET, JavaScript and MySQL.
- Handled software updates, system details and operational support for users and business processes.

Full Stack Developer | Objetivo Baixada Santista | Oct 2017 - Dec 2019 | Santos, Brazil

- Developed front-end and back-end web application features, working with PHP, SQL, JavaScript, HTML, CSS, Bootstrap and WordPress.
- Created APIs, managed databases and delivered customised web solutions based on client and business requirements.
- Strengthened technical problem-solving, database awareness and user-focused system design experience.

Administrative Assistance Specialist | Prefeitura Municipal de Santos | Sep 2015 - Sep 2017 | Santos, Brazil

- Supported administrative operations, schedule organisation, documentation, team assistance and day-to-day office workflows.
- Developed organisational discipline, attention to detail and cross-functional communication skills in a public-sector environment.
